

Abbott's Guideline for Purchasing the AlphaTRAK[®] Blood Glucose Monitoring System

Dear dog/cat owner,

Your veterinarian has recommended you purchase the AlphaTRAK blood glucose monitoring system to assist in managing your cat or dog's glucose levels. There are many websites claiming to sell the AlphaTRAK system. Please be aware that there are NO AUTHORIZED ONLINE DISTRIBUTORS for Abbott's AlphaTRAK system. Since we cannot guarantee the integrity of those products we strongly recommend that you do not purchase the AlphaTRAK system online. We will only warranty and support products purchased through your veterinarian.

Purchasing AlphaTRAK through an unauthorized source raises the risk of purchasing an adulterated product which could pose a health threat to your cat or dog. Glucose results from products of an unknown source may be inaccurate which could lead to inappropriate treatment of your cat or dog.

If you have already purchased the AlphaTRAK system from the Internet we suggest you return the product for a refund and purchase through your veterinarian.
